

# **Rocky Pointe Marina October Newsletter**

## **Asphalt Paving Project Delayed 1 week Now Monday Sept 21 to Friday Sept 25th**

Due to the heavy smoke from the fires, the contractors have delayed our paving project 1 week.

There will be very limited access during that entire week. Enclosed is our same flyer we sent out a week ago that is revised with the new dates and minor updates. The new road will be open at 4pm on Friday

## **NO TRUCKS UNTIL OCT 8<sup>th</sup>**

Please do not schedule deliveries or service work until Oct 8<sup>th</sup>. We will have a large banner sign posted at the top of the hill for all trucks to stay up on the hill and call the marina office who will send a staff up to get the delivery. If a contractor shows up with a truck they will need to walk down the hill with their tools to your home.

## **Boat Trailers and Trailer Boats**

### **Boats planning on leaving by Oct 1<sup>st</sup> should plan on a Delay**

We realize many trailer boats pull out of the water at the end of September. Because the trailers are stored and we are not allowing trailers on the new asphalt until Oct 8th- We will not charge any of these people for any October moorage provided they are out of the water by October 31<sup>st</sup>.

## **Ramps Installed**

The lower and middle marina ramps were installed a couple of weeks ago. Those got installed in only half a day with just a little over an hour of power outage. Thank you Columbia River PUD for working so hard with us to make this happen.
